

SAI KRISHNA SURESH

CO-CHIEF TECHNOLOGY OFFICER AT CARBON & WHALE

+91 8848172713
SAIKRISH9567@GMAIL.COM

KEY EXPERTISE

Technology Management | Technology Consulting | Research & Development

SUMMARY

Sai is a multidisciplinary technology professional with a strong ability to turn business problems and ideas into practical solutions. He combines experience in software, automation, market research, digital operations, manufacturing technology, and product development, allowing him to work across both technical and business functions. He is particularly good at understanding complex or inefficient processes, identifying opportunities for improvement, and building simple, effective systems to solve them.

MY RECENT WORKS

Design & Development of a Continuous Recycled Plastic Lumber Extrusion Line **2026**

CARBON & WHALE

Leading the end-to-end development of a continuous plastic profile extrusion line, designed and built in-house for Carbon & Whale under my leadership. Responsible for the machine concept, engineering, system design, component selection, prototyping, testing, and process optimization.

Automated Expense Management & Reimbursement System **2026**

CARBON & WHALE

Designed and developed an internal expense management and reimbursement system using Google AppSheet, Google Sheets, Apps Script, and Odoo integration. Re-engineered the existing expense workflow to introduce manager-level approvals, role-based interfaces, multi-receipt handling, automated status tracking, and synchronization with Odoo. The solution reduced the need for Odoo licenses across the organization while creating a more flexible and maintainable workflow for employees, managers, and finance.

Evaluating Innovative Startups for Enhancing Supply Chain Transparency and Resilience **2024**

BOSCH

Conducted a comprehensive benchmark report for Bosch, identifying innovative startups offering supply chain transparency and risk resilience solutions. Analyzed companies based on their ability to enhance supply chain transparency, risk mitigation, and sustainability practices. Provided detailed recommendations to support Bosch's operational excellence and corporate responsibility.

EDUCATION

B.VOC IN SOFTWARE DEVELOPMENT **2021**
ST MICHAEL'S COLLEGE | CHERTHALA
